

Ready to treat your fine facial wrinkles and irregular pigmentation from the sun? Then it's time to talk to a dermatologist or skin care physician. Get the ball rolling by filling out this form and bringing it with you to your next appointment. Don't have a dermatologist or skin care physician? We can help. Simply visit refissa.com and click on "Find a Doctor."

Fill out this questionnaire and take it with you to your next appointment.

What do you like least about your skin? _____

If you could change anything about the appearance of your facial skin, would it be:

- Fine facial lines
- Irregular pigmentation from the sun
- Rough skin
- All three

My skin is:

- Dry
- Normal
- Combination
- Oily

Given my skin type, is ReFissa right for me?

Use this space to write down other questions you may have for your dermatologist.

ReFissa 0.05% is a prescription medicine that may reduce fine facial wrinkles and mottled hyperpigmentation in patients who also protect their skin from the sun and wear sunscreen daily. ReFissa does not eliminate wrinkles, repair sun damaged skin or reverse photo-aging. Do not use if you are pregnant, attempting pregnancy, or nursing. Do not use if taking medicines that may increase your sensitivity to sunlight. Use of ReFissa may make your skin more likely to burn from sunlight. ReFissa, early in treatment, may cause redness, itching, burning, stinging and peeling. If you have questions about side effects, contact your physician. If you are uncomfortable, use less medication and decrease the frequency of application. If discomfort is still significant, discontinue use and consult your physician. You are encouraged to report negative side effects of prescription drugs to the FDA. Visit www.fda.gov/medwatch or call 1-800-FDA-1088. Please see full Prescribing Information and Patient Package Insert. ReFissa is a registered trademark of Suneva Medical, Inc. © 2013 Suneva Medical, Inc. All rights reserved.
